

# Dual Enroll

## Frequently Asked Questions

### Will the college credits earned at Garrett College transfer to other colleges/universities?

Yes. Because Garrett College is an accredited institution, most credits earned will transfer to wherever the student plans to attend.

Most four year colleges/universities include a transfer equivalency system on their websites where students are able to look up courses taken at Garrett College to see how they will transfer. ARTSYS is an online system intended to aid the transfer of students from Maryland community colleges to the University System of Maryland institutions and other participating institutions. You can search the course equivalencies on this website: <https://artsys.usmd.edu/>

### What does it mean when a credit transfers as an elective?

Most colleges/universities have a set number of credits designated as open electives based on the program of study. In most cases, students can receive elective credit for courses if the transferred courses don't apply directly to their major.

### What is the cost?

Garrett County students concurrently enrolled in GCPS receive a 50% tuition waiver from the college. Currently, the County Scholarship Program pays the remaining 50% of the tuition. Students are responsible for a \$25 registration fee each semester they enroll in college course(s).

### Are students permitted to enroll in other courses not listed in the planning guide?

Yes, students are able to enroll in any course in which they meet the prerequisites. Students will receive college credit for these additional courses, but they will not meet high school requirements.

### Are the textbooks provided?

No, it is the responsibility of the student to purchase the textbooks for the course(s) in which they are enrolled. Garrett College professors make every effort to utilize free or low-cost course materials.

### How should we decide between HSDE and AP courses?

Both types of courses are beneficial for students wishing to pursue post-secondary education. Students and parents/guardians should carefully consider which option of obtaining college credit best meets their individual post-secondary and/or career goals.

# High School Dual Enrollment Transfer Equivalencies

GC Course Title	FSU <i>Equivalent course</i>	UMCP <i>Equivalent course</i>	WVU <i>Equivalent course</i>

## Program to Program Transfer Agreements

Garrett College works with four-year colleges and universities to create clear pathways for students who wish to complete a bachelor's degree. Transfer agreements for many of our degree programs have been established with top transfer destinations, such as FSU, WVU, and University of Maryland Global Campus.
